SOLE™ FITNESS

International Brochure

SOLE Treadmills are preferred by hotels nationwide for In Room Fitness programs. SOLE manufactures fitness equipments that both perform and hold up under rigorous hotel use and conditions. Engineering and offering unsurpassed quality for hotel use have been SOLE's foundations for successful residential and light commercial sales.

We'll Move You

Whether you want to quit your gym membership for working out at home, or you want to start a small gym, here you will find the equipment that meets your specific needs at a price you'll appreciate. SOLE has the treadmills, ellipticals, and exercise bikes to make any fitness center complete, regardless of whether that's in your basement or in your local community. SOLE fitness equipment has received numerous "Best Buy" reviews and ratings year in and year out from the most reputable consumer review sites and magazines.

TREADMILL SERIES

SOLE Treadmills are built to satisfy and feature only the finest components. From the motors to the rollers, from the belts to the steel, SOLE Treadmills are built to perform. Having been proven in the frequent, rigorous use in hotel environments, SOLE Treadmills have the quality and feel you are looking for in a treadmill for your home.

Our competitive treadmill line features simple appearances and emphasis on quality and value. These treadmills are not only priced well but are also the most portable treadmills available. They have four very stable wheels for easy movement, and folding decks to conserve space.

"The attention they have put into the quality of their machines has paid off making them a strong player in the market over the long term."

LIGHT COMMERCIAL

T18

TREADMILL Features

Hill

Simulates climbing by increasing and decreasing the resistance steadily.

Cardio

Strengthens heart muscle, cardiovascular function and endurance by increasing blood flow and lung capacity.

Interval

Increases endurance by depleting and replenishing oxygen periodically.

Fit Test

Provides calculated scores from users' heart rates in order to determine their health condition.

Fat burn

Maximizes fat burning efficiency by keeping the heart rate at around 65% of max HR during the workout.

Strength

Uses high level of resistance to enhance lower body muscular strength.

User Programs

Allows training program customization.

Heart Rate Programs

Automatically dictates heart rate and adjusts speed as well as incline to maintain targeted heart rate.

Convenient Speed & Incline Controls

Built in speed and incline controls in our handrails add ease of use and unparalleled control during your workout.

Cushion Flex Suspension System

A unique design among all types of treadmill on the market, this deck provides our users with a comfortable and quiet workout. A recent study shows that our cushion flex can reduce as much as 40% of the impact on the joints, compared to running on asphalt.

Sound System with 2 way Cable

The workout just got easier. The sound system allows anyone with a music device to be able to listen to their music during their workouts.

Easy Assist Folding Design

With safety and quality in mind, SOLE has developed an easy to assist folding design. At the flip of a switch, the deck will unfold itself slowly without the need for another person's assistance. It is also easy and secure to fold the treadmill back into upright position.

Double Horseshoe Folding Frame

This design was built for hotel needs. Treadmill needed to be as mobile as possible while still providing efficient workouts. Our easy to move design is constructed from an all-steel welded frame that is more stable than most non-folding frames.

At SOLE Fitness, we believe that the quality of the equipment affects the quality of the workout. Our engineers and designers constantly evolve and update treadmill designs. As a result, SOLE treadmills have won Best Buy awards from consumers and review agencies over the past decade.

F60

SOLE Introduces Its Most Affordable Treadmill Ever

The F60 treadmill is one of the newer additions to the SOLE lineup. SOLE has always prided itself on the quality and value of our machines. We are confident that the F60 is well on its way to becoming another best seller.

Large Running Surface

F60 is equipped with a large 20" x 60" running deck with cushion flex suspension and a strong 2.75 chp motor and easy-assist folding design.

Specialized Workout Programs

Along with design values, the F60 comes with 10 standard programs and a very detailed, informative display console, which will provide users with beneficial feedback during and after workouts.

PRECISELY Welded Frame

Accurate and precise welding is important when designing a treadmill. Durability of a product begins with a strong frame, capable of handling multiple users of various weights and heights.

Sound System with Audio-in and Out Jacks

The console has built in speakers / sound system that will make an hour long workout feel like minutes.

"The Sole F60 Folding Treadmill is an excellent value! It's basic yet very capable in the most important areas: running smoothly and quietly."

by **treadmill**
REVIEWS.NET

F63

Built for Satisfactory Performance

The F63 treadmill has been reviewed as "Simply the best quality treadmill in its price range" by numerous consumer resources and magazines. "At this price, the F63 is an unbelievable value." SOLE has earned the reputation of building quality treadmills using the best components, the F63 holds true to this even at a lower price.

"This is a "Space Saver" or folding treadmill which incorporates a shock-assisted manual folding design that folds up and out of the way when you have completed your workout session."

by **Treadmill Doctor**
The Most Trained Name In
Fitness Equipment

Premium Components

The strong, 3.0 Continuous Duty HP motor delivers challenging speeds up to 12 mph and inclines up to 15 levels. And when not in use, the treadmill deck safely locks into place, 100% secured.

Specialized Workout Programs

The console runs up to six preset programs including cardio training and fat burning specific programs. Other safety features include a large stop switch, starting from only in 1.0 mph and a low-profile running hood.

Vibrant Blue LCD Display

The F63 console is user friendly with a vibrant blue display. The information that is displayed at all times includes Speed, Incline, Time, Distance Traveled, Calories, Pulse and Pace. There is also a 1/4 mile track feature and a Peak and Valley graph for different programs.

Sound System with Audio-in and Out Jacks

The console also has built in speakers which allow you to hook up any MP3 player (iPod, etc.) for easy listening.

F80

Rated and Reviewed as The "Best Buy"

The F80 treadmill has been reviewed as "The best treadmill in its price range" by both consumers and numerous consumer resources. The F80 treadmill upgrades to an industry leading warranty and the Cushion Flex Whisper Deck, testified in a study, reduces impact up to 40% (36.5% - 40%) compared to running on asphalt.

Premium Motor

The strong, 3.5 Continuous Duty HP motor delivers challenging speeds up to 12 mph and inclines up to 15 levels. And when not in use, the treadmill deck safely locks into place, 100% secured.

Easy Assist Folding

The F80's folding frame, without compromising stability and power, is designed for demands from hotels that needed treadmills as mobile as a room service cart. So whether it's a hotel room or your living room, you have the best of both worlds.

Specialized Workout Programs

The console runs up to six preset programs, two customizable workout programs and two heart rate programs. Other safety features include a large stop switch, starting from only in 0.5 mph and a low-profile running hood.

Vibrant Blue LCD Display

The treadmill console is user friendly with a vibrant display. The information that is displayed at all times includes Speed, Incline, Time, Distance Traveled, Calories, Pulse and Pace. There is also a 1/4 mile track feature and a Peak and Valley graph for different programs.

"You can't find many treadmills with a wider walking surface, and you certainly won't find one for a price like this. You should definitely give this machine a look."

by **Treadmill Doctor**
The World's Leading Name in Fitness Equipment

"As far as projected reliability is concerned, it does very well... The durability exceeds what you expect in its price range compare to the others. The quality of parts is also quite impressive."

by **Treadmill Doctor**
The Most Trusted Name In Fitness Equipment

TT8

Light Commercial
Treadmill

**Compare Anywhere;
The TT8 is Miles Ahead Of The Competition.**

The TT8 is an engineering marvel in every sense. TT stands for twenty-two as in twenty-two inches wide - the width of the running surface designed to give runners an extra safe and comfortable feel. The extra width truly lets runners run freely without having to think about where they're positioned on the treadmill at all times.

Ultra-durable Frame

TT8 offers a grated reinforced framework, perma-waxed reversible deck, with 3" crowned rollers, which offer any runner uncompromising quality for years and years of use. When compared to other models, the SOLE TT8 is miles ahead of the competition in quality, performance, and value.

Oversized Running Surface

TT8's running surface is the largest in the SOLE line at 60" X 22". It comes with a 2 ply belt, adding sturdiness to the treadmill as well as longevity. The TT8 also offers up to 12 mph and 15 levels of incline to give you a variety of options for interval workouts.

Cushion Flex Suspension System

The TT8 treadmill has the same great Cushion Flex Deck that other SOLE models have to minimize impact to hips, knees and ankles.

Heart Rate Control

The TT8 also comes with Heart Rate Control, complete with a Polar chest strap, to keep you on target for heart rate training. Additionally the TT8 incorporates a cooling system which allows for extended usage for multiple users or long runs without the risk of overheating.

ELLIPTICAL SERIES

SOLE makes ergonomic conscious ellipticals that simulate smooth, continuous, elliptical exercises through your feet's natural strides. Such perfected ergonomic designs grant comfortable exercises at all times.

More importantly, SOLE looks for innovative ideas that keep dedicated fitness people in mind. These ideas make people stay in shape, or successfully follow a fitness plan regardless of where they are.

"These are large, impressive machines. And the new Sole ellipticals for this year have even gone above and beyond last years models."

Multi-grip Position Handles

This innovative design enables users to find the most comfortable and ergonomic positions on the handle, making the workouts more enjoyable than ever.

Convenient Resistance and Incline Controls

The adjustable incline and resistance controls, built into the arms, make it easy to change your workout without ever moving your hands.

2 Degree Inward Custom Designed Foot Pedals

These unique foot pedals were developed in collaboration with a leading physical therapist. Together with SOLE engineers, we have designed a 2 degree inward slope on the foot pedals in order to reduce ankle and knee impact. This is an important feature other elliptical manufacturers do not pay attention to.

Power Incline

Our ellipticals have a power incline feature which offers additional resistance and varied positions in your workout at the touch of a button. The ramp angle is adjustable from 0 to 15 levels, allowing you to work on all lower body muscle groups.

Adjustable Foot Pedals

This design produced a revolutionary foot pedal angle adjustment not found on any other elliptical. Not everyone walks the same way; for this reason we have made the pedals adjustable to fit the way you walk. This feature also reduces the numb toe effects and sore Achilles tendons.

The SOLE elliptical is designed to accommodate your stride, so you can forget about the machine and focus on your fitness experience. SOLE ellipticals give you an intense workout with low impact on your body. In fact, our front-drive elliptical line has received numerous "Best Buy" reviews from leading consumer magazines, and consumers alike.

E35

Fluid, Stable, Smooth.

E35 is rated as a "Best Buy" from numerous consumer websites and "The Best Buy" from leading consumer magazines for its quality and value. This model has a user friendly console with blue backlit LCD display. Added perks include built-in cooling fan, water bottle holder, and built-in speakers allowing users to hook up any music device.

whisper-quiet Drive System

The whisper-quiet drive system provides fluid, natural motion. The combination of a heavy 29 lb. flywheel and a high gear ratio, not found on comparable models, renders the utmost smoothness with plenty of resistance for a challenging workout.

Stationary Handle Bars

There are built-in heart rate sensors on the stationary handles. Additionally, a separate chest strap is included for the same monitoring for interactive programs.

Oversized Foot Pedals

Oversized foot pedals add more comfort to workouts. SOLE listened to the preference of enthusiasts and collaborated with a leading physical therapist to come up with the unique 2 degree inward slope, which reduces ankle and knee impact.

Stable Frame

Four wheels ride on heavy duty rails which act as extra stabilizers, so users consistently pedal on an upright posture. This feature is found only on more expensive models on the market.

Awarded Bronze Award! SOLE E35 gives you a smooth and substantial workout with its pre-set programs... You can set yourself and tailor them to your specific workout needs.

by  **consumersearch**
love what you buy

E95

An absolute "Best Buy" in every sense.

Sole E95 is one of our most sophisticated ellipticals which incorporates great exercise and natural human movement. The adjustable pedals give everyone the same extraordinary workout experience and the power incline can increase the training level and efficiency for intensive trainers. Enjoying a total body workout that is easy on your joints with comfort has never been this easy!

The Sole E95 gives everything you need for work out, plus a larger flywheel which makes the motion smoother by supplying extra inertia... The E95 finally gives you a very reasonable price for the quality that you receive.

by **Treadmill Doctor**
The Nation's Trusted Source For
Fitness Equipment

Custom Designed Foot Pedals

Oversized foot pedals add more comfort to workouts. SOLE listened to the preference of enthusiasts and collaborated with a leading physical therapist to come up with the unique 2 degree inward slope, which reduces ankle and knee impact. This is a feature other manufacturers don't pay attention to.

Accommodating Foot Pedals

Not everyone walks the same; for this reason we have made the pedals accommodating to fit the way you walk. This feature also reduces the numb toe effects and sore Achilles tendons, allowing users to focus more on achieving their goals.

Power Incline

This feature separates SOLE from the rest of the market. It creates a completely different workout that targets areas of the lower body that normally would not be worked out on an elliptical without Power Incline.

Strong Frame

E95 features 38 mm steel frame, adding extra diameter to the main structure of the elliptical. This means more stability and sturdiness.

EXERCISE BIKE SERIES

SOLE Exercise Bikes combine the beauty of comfort and affordability into one. Workouts don't require being uncomfortable. The course should all be set by the user: when, where, and for how long. With that in mind, SOLE's exercise bikes enhance even more factors contributing to comfort: ergonomic design, adjustable seating, and a large, easy to view console display.

EXERCISE BIKE

Features

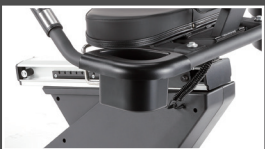

Workout Display

Easy console viewing makes workout more pleasant. Displaying workout info on a large screen is vital for meeting workout goals. Easy viewing means less distractions and more achievement.

Pedal Design

The ergonomic pedal design of SOLE Bikes is unique. The 2-degree inward tilt aligns the joints in their correct posture during workout, preventing aches in the knees and feet.

Adjustable Seating

The seat is adjustable, moving a user forward and backward while seated. The back rest is adjustable as well. Because all users differ in height it's important to have the freedom of finding that perfect comfort level during a workout.

Frame

A strong durable frame is vital for Light Commercial bikes. Heavy Steel tubing, coated with aluminum shroud, makes the SOLE bikes sturdy but light and manageable. Two wheels in the front act as touch points for easy, convenient moving.

SOLE Fitness engineers aimed to deliver comfort as the most important goal in the design of Exercise Bikes. Featuring three compact profiles—Recumbent, Spin and Upright—you can select the one that fits your exercise style. Using only premium components, we focused on ergonomic design, without giving up stylish appearance.

"Sole R92 is very comfortable with lower back support and slanted pedals in the seat. If you are looking for an high-end one, this Sole Fitness R92 is the right choice."

by **TopBestReviews**
Find the best of everything

R92

Less Pain but More Gain

Recumbent bikes are becoming the latest trend in the exercise world because getting a great workout has never been so comfortable. The market has proven to respond to SOLE's recumbent designs especially for its relaxing position and low impact - an extremely important consideration when choosing fitness bikes. Users with foot and joint issues will love our R92.

Uniquely Designed Foot Pedals

Our patented 2 degree inward design on our foot pedals puts your body in its correct posture, minimizing the aches and pains that other manufacturers' models may cause.

Comfort Level

With a comfortable supportive seat that adjusts to users' needs, you can focus less on being uncomfortable and more on getting in shape. Statistics show that people are more likely to stick to a routine on a recumbent bike than other forms of exercise.

Vibrant Blue LCD Display

Our integrated 9" LCD display, with customizable programs, is the spotlight of this model. If you are looking for challenge, preset programs such as Hill, User Defined feature, or Heart Rate Control will add excitement to your workout routine.

Sound System with 2 Way Cable

Along with fans and MP3/iPod compatibility, the R92 will make workout more interesting even as you push yourself to the next level.

B94

Comfortable and Compact

When talking about the most popular home exercise equipment for losing weight, upright bikes will always be mentioned. Known for being lightweight, durable, easy-to-use and space saving, the B94 will be the perfect piece of exercise equipment for anyone.

Comfort Level

The adjustable gel seat, strong frame, and ergonomically designed pedals allow the machine to conform its movement to you instead of the other way around.

Uniquely Designed Foot Pedals

Our patented 2 degree inward design on our foot pedals puts your body in its correct posture, minimizing the aches and pains that other manufacturers' models may cause.

Vibrant Blue LCD Display

The B94's straightforward buttons and 9" LCD display will also provide users with fast, effective fat-burning cardio exercises. You will spend less time on gimmicky interface and more time on reaching your goals.

Specialized Workout Programs

There are 10 challenging programs to choose from. The User Defined program enables the freedom to self-design for starters and for those who train rigorously. B94's customizability perfects your workout.

"... a great buy for those who have a medium to large budget for upgrading your home gym. A modern, sturdy design with features and capabilities that will really help you reach your weight loss and exercise targets."

by **OCFitnessSource**

SB700

Intensity? Not a Problem

The SOLE SB700 takes users to the next level of exercising and is satisfactory to both the indoor and outdoor cyclist. Understanding the needs of both types of users, SOLE combined both indoor and outdoor elements together to design a comfortable, affordable bike, allowing users to have the dual experience in the comfort of their own home or Light Commercial setting.

"Intensity...not a Problem!

It takes users to the next level of exercising and is satisfactory to both the Indoor and outdoor cyclist. Sole combined them together to design a comfortable, affordable bike..."

by **FresherFitness**

Adjustable Seat and Handlebars

For indoor cycle enthusiasts, comfort is extremely important. The adjustable seat and handlebars move vertically and horizontally, allowing a user to find just the right settings for a great workout.

Comfort Level

The gel seat is a critical feature for enhanced comfort at home, and certainly essential for professional cycling. Gel seats lessen pressure significantly.

Commercial Grade Flywheel

A heavy duty 48 lb. chrome plated flywheel and Kevlar breaking design will guarantee a quiet and smooth ride.

Oversized Foot Pedals

Oversized foot pedals add more comfort to workouts. SOLE listened to the preference of enthusiasts and collaborated with a leading physical therapist to come up with the unique 2 degree inward slope, which reduces ankle and knee impact.

F65

"... I love the features, it's great to be able to hit a number button for the speed and incline changes instead of constantly hitting the up or down buttons."

Dante C.

"SOLE F65 has received Best Buy awards. It offers a decent tread belt size and diverse workout apps that will keep the user entertained."

review guru

"The F65 Sole treadmill offers quality at a great price. As seen in many consumer ratings and reviews this is a great treadmill for medium use and outperforms many treadmills costing much more."

Simply Fitness

F85

"... The SOLE F85 is the best folding treadmill in the SOLE lineup. If you want a treadmill that will fold up, but also be strong and durable at the same time, then this model is perfect for you."

Kevin Barnett

"... The SOLE F85 has won best buy several times and receives great expert and customer reviews. This treadmill accommodates all types of users, from beginners to advanced athletes."

review guru

"... The F85 also incorporates the largest deck that SOLE offers, an exceptional 22" wide running surface that is comfortable for any runner."

OCfitness

S77

"... SOLE S77 is one of the best units available on the market today, but it seems that we were lucky with our model. Other users haven't been so lucky"

runreviews.com

"... The SOLE S77 was made for runners. Twelve easy to control speeds and up to a 15 levels incline make the machine stand out in its class."

TreadmillReview.com

"... The parts seem very solid, stable, and heavy duty. This treadmill also has a large running surface and offers a great weight capacity for larger users."

review guru

REVIEWS

E20

"...Very quiet and sturdy just like at the gym. Easy to use and love the features. We are very pleased with this product and would recommend it to others..."

Michelle

"...The Sole E20 is a new machine by Sole at a lower price point than anything Sole has attempted before and still provides excellent value compared to other models in its price range."

Treadmill Doctor

"...The Sole E20 Elliptical easily competes with and often outshines many light commercial trainers with higher price tags."

Elliptical Review.Net

E25

"... The SOLE E25 is quiet and smooth with a good selection of 10 workout programs"

Consumer Search

"...The ergonomics of this machine are very nice. And the reliability is really good for this price range."

Treadmill Doctor

"...The Sole E 25 is an extremely consistent and reliable elliptical with great value."

EXCEPTIONAL DURABILITY

"These trainer bikes are really well designed thanks to the durability, heavy flywheel resistance, oversized pedals, and foam seat. The operation is nearly flawless and the experience more than comfortable."

by **FitRated.com**

INTERNATIONAL DISTRIBUTOR INFO

SOLE Fitness aims to continuously produce durable, professional, and innovative equipments that are consistent leaders in North America as well as successful entries to other international markets. With that intent in mind, SOLE is proud to have the opportunity to present its product line to the global market. Now, users have the opportunity to acquire quality, affordable fitness equipment throughout the world.
